

# CALL FOR PAPERS / INVITATION TO SPECIAL SESSION INTELLIGENT SYSTEMS AND SOFTWARE ENGINEERING ADVANCES

International Conference on  
Information and Software Technologies

16-17 October, 2025,

Lithuania

## SCOPE

In the modern world each day brings more facts and information, and the need for efficient decision support systems is growing to assist in operation, user guiding, modeling, positioning, and solving complex problems. Today science concerns intelligent systems that use software engineering advances based on Computational Intelligence, Neural Networks, Fuzzy Systems, Bio-Inspired Methods, etc. making them easily applicable in today's world challenges. The combinations of these methods are crucial for efficient computer technology that now is present in every aspect of our lives, from simple machines and electronics to sophisticated computer systems. Continuous development, research and professional discussion devoted to these methods and techniques are important for further improvement. The sessions aims to cover topics in the latest achievements in all aspects of computational intelligence and system engineering applications are kindly welcomed to this session.

## TOPICS

Authors are invited to submit full papers on:

- Computational Intelligence Methods and Applications
- Modeling and Applied Mathematics in Various Aspects of Computational Intelligence
- Computational Intelligence in Graphics, Multimedia and Vision Systems
- Computational Intelligence in General Positioning, Civil Engineering, Bathymetric, Routing, Traffic, etc.
- Computational Intelligence for Robotics and Automatics
- Computational Intelligence for Augmented Reality and Virtual Reality Models and Applications
- Code Quality, Data Management, Testing and Separation of Concerns (SoC)
- Intelligent Software, Algorithms and Methods for Large Scale Systems

## IMPORTANT DATES

- 26 02 2025 – Submission of papers.  
25 04 2025 – Notification of acceptance.  
30 05 2025 – Final manuscripts due.

The International Conference on Information and Software Technologies (ICIST) is an international annual event, organized by Kaunas University of Technology. In 2025, the University will organize the 31<sup>st</sup> ICIST Conference from 16<sup>th</sup> to 17<sup>th</sup> October in Lithuania.

01010100

ICIST  
2025

## SUBMISSION OF PAPERS

Authors are invited to submit their papers in English through the conference submission system. Submissions must be original and should not have been published previously. All papers will be peer-reviewed by the ICIST 2025 Program Committee and judged with respect to their quality, originality, and relevance. For further details, please consult the conference web pages.

## PUBLICATION

All accepted papers will appear in the ICIST Conference Proceedings Volume (published by Springer as a part of CCIS series) and submitted for indexing to Clarivate Analytics WoS. Selected authors of best papers will be also invited to submit extended versions of their papers to Information Clarivate Analytics WoS Impact factor 0,707 (2018)). Technology and Control journal (ISSN 1392-124X;

## SPECIAL SESSION CHAIR

Prof. dr. Marcin Wozniak  
Silesian University of Technology  
Poland  
marcin.wozniak@polsl.pl

## SPECIAL SESSION CO-CHAIR

To be announced

## SPONSORED AND SUPPORTED BY

Kaunas University of Technology (KTU)
